

I am really excited about becoming school councillor, because I have lots of ideas for improving the school. I would like to organise more activities that bring us together as a school. This would help us to raise money for school, which I would like to use to make sure there is a class pet in every class. I would also like us to have a school tuck shop on Fridays. I think I am the best person for the job because I think my ideas will improve our school, and I try to be a friend to everyone in our class. Thank you for listening to me today.

James, Foxes

Good morning fellow classmates. I offer myself for the role of school councillor because I strongly believe that I can make a huge impact. I am smart, bold, honest and caring, and I will do all I can to improve our school. I will introduce sporting tournaments and activities like singing, dancing, quizzes, sports tournaments and football games. I will try to get more tablets for us to use in class, and will work hard to improve our school dinners. I will show compassion for everyone, will listen to everyone and together we will make our school better. Thank you for listening to me today!

Idara, Foxes
