

I would like to be our class councillor because, even though I was councillor in Year 1, coronavirus stopped me. I am a good friend and would try and help my class. I think that I am the right person for the job because I am nice and kind and helpful. I try really hard to do good listening and I like helping other people. If you elect me, I would like to find some ways to raise money to help the school and the children but still be safe. We could have non-uniform days, extra playtimes and craft days.

*Poppy, Hedgehogs*

I would like to be our class councillor because I enjoyed being our councillor last year, but didn't get very long to be able to make changes and help everyone. I think that I am the right person for the job because I am helpful and I like to help people that are stuck. If you elect me, I would like to change school so that children can choose the rules. We should all be allowed to bring toys to school and to go on cool trips like going to the seaside. Vote for me please!

*Max, Hedgehogs*
