

I would like to be our class councillor because I would like to be able to make changes if things need to be changed and suggest new ideas for making our school better. I think that I am the right person for the job because I feel that I would be good at getting people's ideas listened to and thought about. If you elect me, I would like to have a school basketball team, new equipment for PE lessons, and have a school choir.

*Frankie, Moles*

I would like to be our class councillor because I have never been on school council before, and I would like to be able to help make our school as much fun as possible. I think that I am the right person for the job because I would like the school to be a better place, and make sure that we all have a great time in Moles this year. If you elect me, I would like to improve our environment, in school and on the field.

*Nicole, Moles*
