

Hello everyone, I am glad to be applying for the role of school councillor as I would love to have the chance to make the school an even better place. I am the perfect person for this role, because I have gained experience from doing it before. I would be more than happy to go to important meetings and organise great opportunities. I would like to raise money for the school as well as children in need. I love that the school has amazing teachers; teachers that you will never forget. I am kind, respectful and always willing to help everyone. I am an organised and responsible person, who will always work hard. I welcome every single one of your ideas to make our school the best it can be. Make a wise choice about who you choose - I will be very thankful if you pick me.

Daniele Mazuolyte, Falcons

Greetings. I, Rashed, strongly believe that I could change the school for the better if you could vote for me as School Councillor. Imagine a school, lush with wildlife, free of litter, well supplied with healthier foods which are delicious and mode. A school where every student takes part, every child can help to ensure a flourishing environment. A school with more opportunities to fun things, like gardening. I could create a pond in the neighbouring forest, for children to look after, so we can watch many creatures, such as fish, frogs - you name it! This is something only someone who is courageous, confident and full of spirit can pull off. So, if these ideas are of your interest, voting for me would be very much appreciated. Thank you for listening to me!

Rashed Hussain, Falcons
