1. Purpose and scope

This policy sets out the school's commitment to supporting, monitoring and mentoring staff appointed as Early Career Teachers (ECTs) with the aim of helping them fulfil their professional duties and meet the requirements for satisfactory completion of the statutory induction period which is the equivalent of 2 school years.

All schools are required to:

- register their ECT for statutory induction with an Appropriate Body (AB)
- ensure that induction is underpinned by the Early Career Framework (ECF)
- ensure ECTs receive a reduced timetable in year 1 (10%) and in year 2 (5%)
- appoint both an induction tutor and a mentor to support induction.

This policy does not form part of any employee's contract of employment, and it may be amended at any time.

2. Roles and Responsibilities

2.1 Appropriate Body

The school will appoint an Appropriate Body (AB) to quality assure the induction process from commencement through to final assessment and certification from the Teaching Regulation Agency (TRA).

We have chosen to subscribe to the Hertfordshire Appropriate Body Service, currently provided through Chiltern Teaching Schools Hub. This provides access to:

- administrative services for registration, monitoring, progress reviews and assessments including returns to the Teaching Regulation Agency (TRA)
- an online assessment system for headteachers, induction leads, induction tutors and ECTs
- online access to an ECT induction handbook and digital platform for all ECTs, induction leads and induction tutors detailing the most up-to-date guidance on the induction process
- telephone, email, and face-to-face advice, support and guidance for headteachers, induction leads, induction tutors and ECTs
- advice, support and guidance where ECTs experience difficulties and/or are assessed at C2/D grade (this includes any necessary monitoring, additional intervention and formal meetings with unions)
- training for induction leads and induction tutors

- fidelity-checking for schools following a core or school-based ECF induction programme
- quality assurance to ensure fairness and consistency across schools.

Progress reviews will be completed and submitted online towards the end of Terms 1, 2, 4 & 5. Formal Assessments will take place in Terms 3 & 6 (final).

2.2 Headteacher/ Induction Lead

The Headteacher and/or induction lead will oversee the induction process in line with the statutory guidelines, ensuring that the ECT is registered with an AB, appropriate mentoring provision is in place (including provision of an ECF-based induction programme), assessments are completed, and recommendations are made to the AB on whether the ECT has met the relevant Teachers' Standards.

2.3 Induction Tutor

The school will assign an Induction Tutor (who holds QTS) to provide regular monitoring and support, and coordination of assessment throughout the induction process. The Induction Tutor will carry out regular progress reviews and conduct formal assessments where they will make rigorous and fair judgements about the ECT's progress in relation to the Teachers' Standards. They will also need to ensure that they can recognise when an ECT is experiencing difficulties and when early action is needed.

2.4 Mentor

The role of the mentor is discrete from the role of Induction Tutor. The school will assign a mentor who holds QTS and leads regular mentoring sessions with the ECT, providing a dedicated source of support, guidance and coaching for the ECT's professional development, including their engagement with the ECF programme. The mentor is not responsible for any aspect of the ECT's formal assessment.

2.5 ECT

The ECT will be expected to participate in all tasks associated with the induction process and to actively engage with any support, guidance, feedback and training provided.

3. Induction Process

3.1 Adherence to statutory induction guidance

The school will meet the requirements of the DfE statutory guidance on ECT induction by providing the following:

- An Induction tutor who holds QTS and has the necessary skills and knowledge to work successfully in this role. The induction tutor will have access to induction tutor training in order to understand the expectations of this role.
- A mentor who holds QTS and has the necessary skills and knowledge to work successfully in this role. The mentor will engage with ECF programme mentor training in order to understand the expectations of this role.
- Appropriate work tasks, experience and support to enable the ECT to demonstrate satisfactory performance against the relevant Teachers' Standards by the end of the induction period.
- Regular professional reviews of progress where the ECT is monitored and observed by the induction tutor who sets and reviews development targets against the Teachers' Standards.
- A reduction in timetable to enable the ECT to undertake activities related to their induction (in line with paragraph 2.19 of the statutory guidance). This will be in the format of 10% release time in the first year of induction and a 5% timetable reduction in the second year.
- A personalised programme of development, support and professional dialogue.
- Regular observations of the ECT's teaching, including written and oral feedback on all aspects of their practice.
- Opportunities to observe experienced practitioners.
- Access to relevant training and development activities.
- An induction programme that is underpinned by the ECF (see below). The school must offer an ECF programme that supports the ECT to apply the knowledge and skills set out in the Early Career Framework into their own practice.

3.2 Providing an Early Career Framework (ECF) based induction programme

The Early Careers Framework is designed to help ECTs succeed at the start of their teaching careers. The framework sets out what all ECTs should learn about, and learn how to do, including:

- setting high expectations
- promoting good progress
- demonstrating good subject and curriculum knowledge
- planning and teaching well-structured lessons
- adapting teaching

- making accurate and productive use of assessment
- managing behaviour effectively
- fulfilling wider professional responsibilities

The ECF is not an assessment tool and an ECT's progress should not be judged against their engagement with the ECF training programme.

There are three approaches schools can choose from to enable the delivery of an ECF based induction. ECF based training programme:

- Full induction programme - a funded, provider-led programme offering a blend of face-to face and online training for early career teachers and their mentors based on DfE accredited provider materials.
- Core induction programme - schools use freely available DfE accredited provider materials to deliver their own ECF programme of training for their ECTs and mentors.
- School-based programme - schools design and deliver their own ECF based induction programme - this includes selecting elements of the different core programmes.

At the start of each year, the Headteacher and Induction Lead will identify which of these systems represents the most effective approach for any ECTs the school is supporting. In 2022-23, we have chosen the full induction programme. Our ECF programme is delivered by Best Practice Network and Chiltern Teaching Schools Hub.

4. Transitional arrangements for 'pre-September 2021 Cohort' (previously NQTs)

There are transitional arrangements in place for those who have started, but not yet completed, their induction by 1 September 2021. Those who are still undertaking a one-year induction period after 1 September 2021 will have until 1 September 2023 to complete induction within 3 terms under transition arrangements.

If they do not complete their induction by 1 September 2023, when the transition period ends, they will need to complete a 2-year induction period. They will not restart induction, but rather complete what remains of a 2-year induction. Where it is possible, schools should have regard to the revised statutory guidance for any ECTs who are still in the process of completing a one-year induction period.
